The Auxiliaries

1. PREPARE

Preparer &
Deglazer

Before applying the colour, it is essential to clean the surface. We recommend the use of the **Preparer Deglazer**, specially adapted for substrates such as leather, synthetic leather, etc.

The Auxiliaries

2. CREATE

Lightening Thinner

Auxiliary for diluting, thinning and lightening Setacolor Leather colours without altering their properties. For airbrush application, use a mix 1:1 (Thinner and Paint).

Glue

Auxiliaire permettant de diluer, fluidifier et éclaircir les couleurs Setacolor Cuir sans altérer leurs propriétés. Pour une utilisation à l'aérographe, utilisation d'un mélange 1 pour 1 (diluant et couleur).

Masking Fluid

Peelable masking fluid for defining areas on leather or synthetic leather. Application in a thick layer for a very fine finish.

The Auxiliaries

3. PROTECT

Matt
Varnish

Gloss
Varnish

For optimal and long-lasting results, protective varnishes must be applied. Available in matte or gloss.

Thanks to the varnish, you will obtain a perfect sealing of the colour, protecting your creation from scratches and wear.
